AMENDMENTCommissioner for Patents
Washington, D.C. 20231

Dear Sir:

As part of this RCE, it is respectfully requested that an amendment be entered as follows:

IN THE CLAIMS:

Please amend claim 1 (amended) as follows:

5-21 1. (Twice Amended) A molded gear made with a plurality of diametrical ribs extending radially, a web, and a plurality of teeth formed around an outer periphery thereof by cooling and solidifying a molten material in a mold, comprising

a plurality of holes defined circumferentially in a portion radially inner than said teeth to extend through said radially inner portion from a surface side to a back side, and

blades formed at side edges of said holes, an end of each of said blades on the surface side being located on an extension of a surface of a corresponding diametrical rib and extending inclinely toward the back side.

[Please amend claim 2 (amended) as follows:]

2. (Twice Amended) A molded gear made with a plurality of diametrical ribs extending radially, a web, a rim, and a plurality of teeth formed around an outer periphery of a rim by cooling and solidifying a molten material in a mold, comprising

a plurality of blades which produce an axial air flow when said gear is rotated and are formed at distances circumferentially on an inner peripheral surface of the rim, and
